PROFESSIONAL EXPERIENCE

Software Engineer, **Tapptitude**

October 2024 – January 2025

- Engineered a high-performance electric scooter rental application using **TypeScript, Expo, and Supabase**, achieving real-time data synchronization for fleet management and user bookings.
- Optimized app performance by implementing **Zustand** for state management and **TanStack Query** for efficient data fetching, reducing API calls by **40%** and improving load times by **35%**.

Software Engineer Intern, **Accenture**

June 2025 – August 2025

- As a member of the Windchill team, I improved my full-stack development skills in **Java, Spring Boot, and PostgreSQL** while building a highly requested feature, **impacting hundreds of enterprise users**.
- Worked across teams, tackled various proprietary technologies to coordinate the launch of the feature, driving the project to completion with **full ownership**.
- Drove significant improvements in the Windchill codebase by independently identifying and addressing opportunities for **refactoring, code quality** enhancement, and **build process optimization**.

Software Developer, **Freelance**

2025 – 2026

- Deliver end-to-end **scalable web and mobile solutions** for diverse clients using **TypeScript, and Expo**, successfully launching products that handle **1,000+ monthly active users**.
- Increased client conversion rates by **30%** by prioritizing **Core Web Vitals** and UI/UX performance through highly optimized **Tailwind CSS** styling and **serverless functions**.
- Reduced development turnaround time by **25%** by creating a library of **reusable custom hooks** and components, ensuring consistent delivery of projects **ahead of schedule** without compromising quality.

Software Intern, **Linnify**

April 2023 – May 2023

- Ignited a deep passion for mobile architecture by immersing into the **React Native ecosystem**, rapidly mastering **TypeScript** and best practices to contribute to code within the first **two weeks**.

EDUCATION

Technical University of Cluj-Napoca, Bachelor's in Computer Engineering

2022 – 2026

- Achieved top placements in competitive coding events and hackathons: **NASA Space Apps** (1st place, 2025), **Cluj Hackathon** (1st place, 2025), **Hermes Hackathon** (2nd place), **Polihack** (Special Prize, 2022), **SUI Hackathon** (2nd place, 2025), and many more.
- Courses taken where I excelled include: Computer Programming, Databases, Software Design, Artificial Intelligence, Intelligent Systems, OOP and Image Processing.

PROJECTS

SOTO [App Store]

- A card game app that helps friends enhance their pre-club experience.

CabinSplit [App Store]

- A smart trip managing app for groups.

EXTRACURRICULAR

Social Media Content Creator, **FORM Family**

2024 – 2025

- Created marketing content that generated **over 20M organic views** for FORM, organized local student events building strong community connections, and coordinated parties in FORM Space with **over 1000+ people per night**, managing logistics, promotion, and execution of large-scale events.

Coordinator of Volunteers, **OSUT Cluj-Napoca**

2023 – 2024

- For 1.5 years, I've volunteered at OSUT, guiding individuals in enhancing both their IT and social skills, contributing to their personal and professional development.
